Securities registered pursuant to Section 12(b) of the Act:

<b>Title of each class</b>	<b>Trading Symbol(s)</b>	<b>Name of each exchange on which registered</b>
Common stock, \$0.10 par value	AJRD	New York Stock Exchange

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input checked="" type="checkbox"/>	Accelerated filer
Non-accelerated filer	<input type="checkbox"/>	Smaller reporting company
Emerging growth company	<input type="checkbox"/>	

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

As of October 18, 2021, the Company had 80,500,624 outstanding common shares, including unvested common shares, \$0.10 par value.

**Aerojet Rocketdyne Holdings, Inc.**  
**Notes to Unaudited Condensed Consolidated Financial Statements**

**Note 1. Basis of Presentation and Nature of Operations**

Aerojet Rocketdyne Holdings, Inc. ("Aerojet Rocketdyne Holdings" or the "Company") has prepared the accompanying unaudited condensed consolidated financial statements, including the accounts of the Company and its 100% owned and majority owned subsidiaries, in accordance with the instructions to Form 10-Q. The December 31, 2020, condensed consolidated balance sheet was derived from audited financial statements, but does not include all of the disclosures required by accounting principles generally accepted in the United States of America ("GAAP"). These interim financial statements should be read in conjunction with the financial statements and accompanying notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2020. Certain reclassifications have been made to financial information for prior years to conform to the current year's presentation.

The Company believes the accompanying unaudited condensed consolidated financial statements reflect all adjustments, including normal recurring accruals, necessary for a fair statement of its financial position, results of operations, and cash flows for the periods presented. All significant intercompany balances and transactions have been eliminated in consolidation. The preparation of the unaudited condensed consolidated financial statements in conformity with GAAP requires the Company to make estimates and assumptions that affect the amounts reported in the unaudited condensed consolidated financial statements and accompanying notes. Actual results could differ from those estimates. In addition, the operating results for interim periods may not be indicative of the results of operations for a full year.

The Company's operations are organized into two segments:

*Aerospace and Defense* — includes the operations of the Company's wholly-owned subsidiary Aerojet Rocketdyne, Inc. ("Aerojet Rocketdyne"), a leading technology-based designer, developer and manufacturer of aerospace and defense products and systems for the United States ("U.S.") government, including the Department of Defense ("DoD"), the National Aeronautics and Space Administration ("NASA"), and major aerospace and defense prime contractors.

*Real Estate* — includes the activities of the Company's wholly-owned subsidiary Easton Development Company, LLC ("Easton") related to the re-zoning, entitlement, sale, and leasing of the Company's excess real estate assets.

The fiscal year of the Company's subsidiary, Aerojet Rocketdyne, ends on the last Saturday in December.

A detailed description of the Company's significant accounting policies can be found in the Company's most recent Annual Report on Form 10-K for the year ended December 31, 2020.

*Merger*

On December 20, 2020, the Company entered into an Agreement and Plan of Merger (the "Merger Agreement") with Lockheed Martin Corporation ("Lockheed Martin") and Mizar Sub, Inc., a wholly-owned subsidiary of Lockheed Martin ("Merger Sub"), pursuant to which, subject to the terms and conditions thereof, Merger Sub will merge with and into the Company (the "Merger") with the Company being the surviving corporation and a wholly-owned subsidiary of Lockheed Martin. Subject to the terms and conditions set forth in the Merger Agreement, each share of common stock outstanding as of immediately prior to the effective time of the Merger will be automatically converted into the right to receive cash in an amount equal to \$51.00 per share (adjusted from \$56.00 following the payment of the Pre-Closing Dividend, as discussed below).

In December 2020, the Company's Board of Directors declared a one-time cash dividend of \$5.00 per share (including shares underlying the 2.25% Convertible Senior Notes ("2¼% Notes") participating on an as-converted basis) (the "Pre-Closing Dividend"). On March 24, 2021, the Company paid the Pre-Closing Dividend to holders of record as of March 10, 2021. Payment of the Pre-Closing Dividend was made in connection with the anticipated acquisition of the Company by Lockheed Martin. Under the terms of the Merger Agreement, the Company's payment of the Pre-Closing Dividend adjusted the consideration to be paid by Lockheed Martin at closing from \$56.00 per share to \$51.00 per share.

On February 18, 2021, the Company received a request for additional information ("second request") from the Federal Trade Commission ("FTC") as part of the regulatory review process for the acquisition of the Company by Lockheed Martin.

On March 9, 2021, the stockholders of the Company voted in favor of approving the Merger Agreement at a special meeting.

As part of the regulatory review process of the transaction, on September 24, 2021, the Company and Lockheed Martin each certified substantial compliance with the FTC's second request, and the parties continue to engage with the FTC. Subject to satisfactory completion of the regulatory review process and satisfaction of the other closing conditions specified in the Merger Agreement, closing is anticipated to occur in the first quarter of 2022. As previously disclosed, under the Merger Agreement, the "outside" date that gives rise to certain termination rights will automatically be extended from December 21, 2021, to March 21, 2022, in circumstances where all conditions have been satisfied but for the receipt of regulatory approvals.

*Coronavirus ("COVID-19") Pandemic*

During the nine months ended September 30, 2021, the Company's financial results and operations were not materially adversely impacted by the COVID-19 pandemic. As a defense industrial-base U.S. government contractor, the Company is considered an essential business by the U.S. and state governments and it continues to operate as such during the COVID-19 pandemic. The extent to which the Company's future financial results could be impacted by the COVID-19 pandemic depends on future developments that are highly uncertain and cannot be predicted at this time. The Company is not aware of any specific

event or circumstance that would require an update to its estimates or judgments or a revision of the carrying value of its assets or liabilities as of the date of issuance of this Quarterly Report on Form 10-Q. These estimates may change, as new events occur and additional information is obtained. Actual results could differ materially from these estimates under different assumptions or conditions.

#### Recently Issued Accounting Pronouncements

In August 2020, the Financial Accounting Standards Board issued guidance which simplifies the accounting for convertible instruments. This guidance eliminates certain models that require separate accounting for embedded conversion features, in certain cases. Additionally, among other changes, the guidance eliminates certain of the conditions for equity classification for contracts in an entity's own equity. The guidance also requires entities to use the if-converted method for all convertible instruments in the diluted earnings per share calculation and include the effect of share settlement for instruments that may be settled in cash or shares, except for certain liability-classified share-based payment awards. This guidance is effective for the Company beginning in the first quarter of 2022 and must be applied using either a modified or full retrospective approach. The Company is currently evaluating the impact this guidance will have on its consolidated financial statements.

#### Note 2. Earnings Per Share ("EPS") of Common Stock

The following table reconciles the numerator and denominator used to calculate basic and diluted EPS of common stock:

	Three months ended September 30,		Nine months ended September 30,	
	2021	2020	2021	2020
(In millions, except per share amounts)				
Numerator:				
Net income	\$ 42.6	\$ 31.7	\$ 105.7	\$ 102.3
Income allocated to participating securities	(0.3)	(0.3)	(0.7)	(1.3)
Net income for basic and diluted EPS	<u>\$ 42.3</u>	<u>\$ 31.4</u>	<u>\$ 105.0</u>	<u>\$ 101.0</u>
Denominator:				
Basic weighted average shares	79.9	77.6	79.0	77.6
Effect of:				
2 <sup>1</sup> / <sub>4</sub> % Notes	2.4	4.2	2.5	4.7
Awards issued under equity plans	—	0.1	—	0.1
Diluted weighted average shares	<u>82.3</u>	<u>81.9</u>	<u>81.5</u>	<u>82.4</u>
Basic				
Basic EPS	<u>\$ 0.53</u>	<u>\$ 0.40</u>	<u>\$ 1.33</u>	<u>\$ 1.30</u>
Diluted				
Diluted EPS	<u>\$ 0.52</u>	<u>\$ 0.38</u>	<u>\$ 1.29</u>	<u>\$ 1.23</u>

Securities which would have been anti-dilutive are insignificant and are excluded from the computation of diluted earnings per share in all periods presented.

#### Note 3. Revenue Recognition

In the Company's Aerospace and Defense segment, the majority of revenue is earned from long-term contracts to design, develop, and manufacture aerospace and defense products for, and provide related services to, the Company's customers, including the U.S. government and major aerospace and defense prime contractors.

The Company evaluates the contract value and cost estimates for performance obligations at least quarterly and more frequently when circumstances significantly change. Factors considered in estimating the work to be completed include, but are not limited to: labor productivity, the nature and technical complexity of the work to be performed, availability and cost volatility of materials, subcontractor and vendor performance, warranty costs, volume assumptions, anticipated labor agreements, inflationary trends, schedule and performance delays, availability of funding from the customer, and the recoverability of costs incurred outside the original contract included in any estimates to complete. When the Company's estimate of total costs to be incurred to satisfy a performance obligation exceeds the expected revenue, the Company recognizes the loss immediately. When the Company determines that a change in estimates has an impact on the associated profit of a performance obligation, the Company records the cumulative positive or negative adjustment to the statement of operations. Changes in estimates and assumptions related to the status of certain long-term contracts may have a material effect on the Company's operating results. The following table summarizes the impact of the changes in significant contract accounting estimates on the Company's Aerospace and Defense segment operating results:

	Three months ended September 30,		Nine months ended September 30,	
	2021	2020	2021	2020
	(In millions, except per share amounts)			
Net favorable effect of the changes in contract estimates on net sales	\$ 11.4	\$ 3.2	\$ 35.2	\$ 20.4
Net favorable effect of the changes in contract estimates on income before income taxes	10.8	3.2	32.4	21.4
Net favorable effect of the changes in contract estimates on net income	8.0	2.7	24.1	16.0
Net favorable effect of the changes in contract estimates on basic EPS	0.10	0.03	0.30	0.20
Net favorable effect of the changes in contract estimates on diluted EPS	0.10	0.03	0.29	0.19

For the nine months ended September 30, 2021, net favorable changes in contract estimates were primarily driven by improved performance and risk retirements on the RS-68, Patriot Advanced Capability-3 ("PAC-3"), and Terminal High Altitude Area Defense ("THAAD") programs partially offset by cost growth on a portion of the Standard Missile and Commercial Crew program. For the nine months ended September 30, 2020, net favorable changes in contract estimates were primarily driven by improved performance and risk retirements on the THAAD, RS-68, RL-10, and PAC-3 programs partially offset by cost growth on a portion of the Standard Missile and Commercial Crew program.

In the Company's Aerospace and Defense segment, the timing of revenue recognition, customer invoicing, and collections produces accounts receivable, contract assets, and contract liabilities in the unaudited condensed consolidated balance sheets. The following table summarizes contract assets and liabilities:

	September 30,	December 31, 2020
	2021	
	(In millions)	
Contract assets	\$ 332.2	\$ 294.3
Reserve for overhead rate disallowance	(4.5)	(5.7)
Contract assets, net of reserve	327.7	288.6
Contract liabilities	342.2	407.2
Net contract liabilities, net of reserve	\$ (14.5)	\$ (118.6)

Net contract liabilities decreased by \$104.1 million from December 31, 2020, primarily due to a decrease in contract advances and an increase in unbilled receivables. During the nine months ended September 30, 2021, the Company recognized sales of \$329.4 million that were included in the Company's contract liabilities as of December 31, 2020.

As of September 30, 2021, the Company's total remaining performance obligations, also referred to as backlog, totaled \$7.0 billion. The Company expects to recognize approximately 32%, or \$2.3 billion, of the remaining performance obligations as sales over the next twelve months, an additional 26% the following twelve months, and 42% thereafter.

The Company's contracts are largely categorized as either "fixed-price" (largely used by the U.S. government for production-type contracts) or "cost-reimbursable" (largely used by the U.S. government for development-type contracts). Fixed-price contracts present the risk of unreimbursed cost overruns, potentially resulting in lower than expected contract profits and margins. This risk is generally lower for cost-reimbursable contracts which, as a result, generally have a lower margin. The following table summarizes the percentages of net sales by contract type:

	Three months ended September 30,		Nine months ended September 30,	
	2021	2020	2021	2020
Fixed-price	57 %	60 %	56 %	61 %
Cost-reimbursable	43	40	44	39

The principal end user customers are primarily agencies of the U.S. government as illustrated in the following table:

	Three months ended September 30,		Nine months ended September 30,	
	2021	2020	2021	2020
U.S. government	96 %	96 %	97 %	96 %
Non U.S. government	4	4	3	4

The Company's Real Estate segment represented less than 1% of the Company's net sales for the three and nine months ended September 30, 2021 and 2020.

#### Note 4. Stock-Based Compensation

The following table summarizes stock-based compensation expense by type of award:

	Three months ended September 30,		Nine months ended September 30,	
	2021	2020	2021	2020
	(In millions)			
Stock Appreciation Rights	\$ (3.5)	\$ 0.6	\$ (3.8)	\$ (1.3)
Stock options	—	0.1	—	0.3
Restricted stock and restricted stock units, service based	1.5	1.5	4.5	4.7
Restricted stock and restricted stock units, performance based	2.5	3.0	9.4	8.7
Employee stock purchase plan	—	0.3	0.5	0.8
Total stock-based compensation expense	\$ 0.5	\$ 5.5	\$ 10.6	\$ 13.2

#### Note 5. Balance Sheet Accounts

##### a. Fair Value of Financial Instruments

Financial instruments are classified using a three-tiered fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

	Fair value measurement as of September 30, 2021			
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Unobservable Inputs (Level 3)
	(In millions)			
Money market funds	\$ 328.6	\$ 328.6	\$ —	\$ —
Registered investment companies	1.6	1.6	—	—
Commercial paper	10.0	—	10.0	—
Equity securities	9.8	9.8	—	—
Total	\$ 350.0	\$ 340.0	\$ 10.0	\$ —

	Fair value measurement as of December 31, 2020			
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Unobservable Inputs (Level 3)
	(In millions)			
Money market funds	\$ 569.3	\$ 569.3	\$ —	\$ —
Registered investment companies	2.5	2.5	—	—
Commercial paper	232.0	—	232.0	—
Equity securities	7.0	7.0	—	—
Total	\$ 810.8	\$ 578.8	\$ 232.0	\$ —

As of September 30, 2021 and December 31, 2020, the total estimated fair value for commercial paper was classified as cash and cash equivalents as the remaining maturity at date of purchase was less than three months.

The carrying amounts of certain of the Company's financial instruments, including cash and cash equivalents, restricted cash, accounts receivable, accounts payable, accrued compensation, and other accrued liabilities, approximate fair value because of their short maturities.

The following table summarizes the estimated fair value and principal amount for outstanding debt obligations excluding finance lease obligations:

	Fair Value		Principal Amount	
	September 30, 2021	December 31, 2020	September 30, 2021	December 31, 2020
	(In millions)			
Term loan	\$ 281.9	\$ 306.5	\$ 288.8	\$ 308.5
2 <sup>1</sup> / <sub>4</sub> % Notes	246.4	609.5	145.9	300.0
Total	<u>\$ 528.3</u>	<u>\$ 916.0</u>	<u>\$ 434.7</u>	<u>\$ 608.5</u>

The fair value of the 2<sup>1</sup>/<sub>4</sub>% Notes was determined using broker quotes that are based on open markets for the Company's debt securities (Level 2 securities). The fair value of the term loan was estimated based on a third-party model used to derive a relative value price using comparable corporate loans within a similar industry, credit quality, and currency.

**b. Accounts Receivable**

	September 30, 2021	December 31, 2020
	(In millions)	
Billed receivables under long-term contracts	\$ 84.8	\$ 75.3
Other trade receivables	0.4	0.3
Accounts receivable	<u>\$ 85.2</u>	<u>\$ 75.6</u>

**c. Other Current Assets**

	September 30, 2021	December 31, 2020
	(In millions)	
Deferred costs recoverable from the U.S. government	\$ 40.2	\$ 41.0
Income tax receivable	30.1	46.9
Inventories	11.5	10.0
Prepaid expenses	17.5	18.0
Other	22.0	20.6
Other current assets	<u>\$ 121.3</u>	<u>\$ 136.5</u>

**d. Property, Plant and Equipment, net**

	September 30, 2021	December 31, 2020
	(In millions)	
Land	\$ 71.1	\$ 71.2
Buildings and improvements	471.8	433.4
Machinery and equipment, including capitalized software	486.0	471.3
Construction-in-progress	71.2	105.5
	<u>1,100.1</u>	<u>1,081.4</u>
Less: accumulated depreciation	(690.6)	(658.3)
Property, plant and equipment, net	<u>\$ 409.5</u>	<u>\$ 423.1</u>

**e. Other Noncurrent Assets**

	September 30, 2021	December 31, 2020
	(In millions)	
Real estate held for entitlement and leasing	\$ 103.4	\$ 101.8
Deferred costs recoverable from the U.S. government	55.0	54.7
Receivable from Northrop Grumman Corporation for environmental remediation costs	36.0	40.5
Other	42.6	57.8
Other noncurrent assets	<u>\$ 237.0</u>	<u>\$ 254.8</u>

#### f. Other Current Liabilities

	September 30, 2021	December 31, 2020
	(In millions)	
Accrued compensation and employee benefits	\$ 115.1	\$ 118.0
Dividend payable	1.7	447.8
Other	46.6	43.9
Other current liabilities	<u>\$ 163.4</u>	<u>\$ 609.7</u>

#### Note 6. Income Taxes

	Nine months ended September 30,	
	2021	2020
	(In millions)	
Income tax provision	\$ 36.3	\$ 34.6

In the nine months ended September 30, 2021, the income tax provision was \$36.3 million for an effective tax rate of 25.6%. The Company's effective tax rate differed from the 21% statutory federal income tax rate primarily due to state income taxes and certain expenditures which are permanently not deductible for tax purposes, partially offset by the impact of Research and Development ("R&D") credits.

In the nine months ended September 30, 2020, the income tax provision was \$34.6 million for an effective tax rate of 25.3%. The Company's effective tax rate differed from the 21% statutory federal income tax rate primarily due to state income taxes and certain expenditures which are permanently not deductible for tax purposes, partially offset by the impact of R&D credits.

A valuation allowance is required when it is more-likely-than-not that all or a portion of deferred tax assets may not be realized. Assessing the need for a valuation allowance requires management to evaluate, on a quarterly basis, all available evidence, both positive and negative. As of September 30, 2021, the Company continues to believe that the weight of the positive evidence outweighed the negative evidence regarding the realization of its net deferred tax assets.

#### Note 7. Long-term Debt

	September 30, 2021	December 31, 2020
	(In millions)	
Term loan, bearing interest at variable rates (rate of 1.83% as of September 30, 2021), maturing in September 2023	\$ 288.8	\$ 308.5
Unamortized deferred financing costs	(0.9)	(1.4)
Total senior debt	<u>287.9</u>	<u>307.1</u>
Convertible senior notes, bearing interest at 2.25% per annum, interest payments due in June and December, maturing in December 2023	145.9	300.0
Unamortized discount and deferred financing costs	(10.5)	(28.4)
Total convertible senior notes	<u>135.4</u>	<u>271.6</u>
Finance leases	43.9	45.6
Total other debt	<u>43.9</u>	<u>45.6</u>
Total debt, net of unamortized discount and deferred financing costs	<u>467.2</u>	<u>624.3</u>
Less: Amounts due within one year	(163.6)	(299.9)
Total long-term debt, net of unamortized discount and deferred financing costs	<u>\$ 303.6</u>	<u>\$ 324.4</u>

#### Senior Credit Facility

The senior secured senior credit facility (the "Senior Credit Facility") matures on September 20, 2023, and consists of (i) a \$650.0 million revolving line of credit (the "Revolver") and (ii) a \$350.0 million term loan (the "Term Loan").

As of September 30, 2021, the Company had zero borrowings under the Revolver and issued \$27.6 million in letters of credit.

The Term Loan and any borrowings under the Revolver bear interest at LIBOR plus an applicable margin ranging from 175 to 250 basis points based on the Company's leverage ratio (the "Consolidated Net Leverage Ratio") measured at the end of each quarter. In addition to interest, the Company must pay certain fees including (i) letter of credit fees ranging from 175 to 250 basis points per annum on the amount of issued but undrawn letters of credit and eurocurrency rate loans and (ii) commitment fees ranging from 30 to 45 basis points per annum on the unused portion of the Revolver.

The Term Loan amortized at a rate of 7.5% per annum as of December 31, 2020, and increasing to 10.0% per annum from December 31, 2022, to be paid in equal quarterly installments with any remaining amounts, along with outstanding borrowings under the Revolver, due on the maturity date. Outstanding borrowings under the Revolver and the Term Loan may be voluntarily repaid at any time, in whole or in part, without premium or penalty.

The Senior Credit Facility is secured by a first priority security interest in the Company's assets, subject to certain customary exceptions, as well as pledges of its equity interests in certain subsidiaries.

The Senior Credit Facility contains financial covenants requiring the Company to (i) maintain an interest coverage ratio (the "Consolidated Interest Coverage Ratio") of not less than 3.00 to 1.00 and (ii) maintain a Consolidated Net Leverage Ratio not to exceed (a) 3.75 to 1.00 from October 1, 2020, through September 30, 2021; and (b) 3.50 to 1.00 from October 1, 2021, thereafter, provided that the maximum leverage ratio for all periods shall be increased by 0.50 to 1.00 for two consecutive quarters after consummation of a qualified acquisition.

The Company may generally make certain investments, redeem debt subordinated to the Senior Credit Facility and make certain restricted payments (such as stock repurchases and dividends) if the Company's Consolidated Net Leverage Ratio does not exceed 3.25 to 1.00 pro forma for such transaction. The Company is otherwise subject to customary covenants including limitations on asset sales, incurrence of additional debt, and limitations on certain investments and restricted payments.

The Company was in compliance with its financial and non-financial covenants as of September 30, 2021.

#### 2¼% Convertible Senior Notes

On December 14, 2016, the Company issued \$300.0 million aggregate principal amount of 2¼% Notes in a private placement to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933, as amended.

In the nine months ended September 30, 2021, the Company settled \$154.1 million of its 2¼% Notes. The principal amount was settled in cash and the conversion premium was settled in common shares. See Note 11.

Holders may convert their 2¼% Notes at their option from October 1, 2021, through December 31, 2021, because the Company's closing stock price exceeded \$33.80 for at least 20 days in the 30 day period prior to September 30, 2021. The Company has a stated intention to cash settle the principal amount of the 2¼% Notes with the conversion premium to be settled in common shares. Accordingly, the net balance of the 2¼% Notes of \$135.4 million is classified as a current liability as of September 30, 2021.

As more fully described in the indenture governing the 2¼% Notes, the holders of the 2¼% Notes may surrender all or any portion of their 2¼% Notes for conversion at any time during any calendar quarter, (and only during such calendar quarter), if the last reported sale price of the Company's common stock for at least 20 trading days (whether or not consecutive) during the period of 30 consecutive trading days ending on the last trading day of the immediately preceding calendar quarter is greater than or equal to 130% (\$33.80) of the conversion price on each applicable trading day.

The following table summarizes information regarding the 2¼% Notes (in millions, except years, percentages, conversion rate, and conversion price):

	September 30, 2021	December 31, 2020
Carrying amount of equity component, net of equity issuance costs	\$ —	\$ 54.5
Remaining amortization period (years)	2.25	3.0
Effective interest rate	5.8 %	5.8 %
Conversion rate (shares of common stock per \$1,000 principal amount)	38.4615	38.4615
Conversion price (per share of common stock)	\$ 26.00	\$ 26.00

Based on the Company's closing stock price of \$43.55 on September 30, 2021, the if-converted value of the 2¼% Notes exceeded the aggregate principal amount of the 2¼% Notes by \$98.5 million.

The following table presents the interest expense components for the 2¼% Notes:

	Three months ended September 30,		Nine months ended September 30,	
	2021	2020	2021	2020
	(In millions)			
Interest expense-contractual interest	\$ 0.8	\$ 1.7	\$ 2.4	\$ 5.1
Interest expense-amortization of debt discount	1.0	2.0	3.2	5.9
Interest expense-amortization of deferred financing costs	0.1	0.2	0.3	0.5

## **Note 8. Commitments and Contingencies**

### **a. Legal Matters**

The Company and its subsidiaries are subject to legal proceedings, including litigation in U.S. federal and state courts, which arise out of, and are incidental to, the ordinary course of the Company's on-going and historical businesses. The Company is also subject from time to time to governmental investigations by federal and state agencies. The Company cannot predict the outcome of such proceedings with any degree of certainty. Loss contingency provisions are recorded for probable losses at management's best estimate of a loss. When only a range of amounts can be reasonably estimated and no amount within the range is more likely than another, the low end of the range is recorded. These estimates are often initially developed substantially earlier than when the ultimate loss is known, and are refined each quarterly reporting period as additional information becomes available.

#### *Merger-Related Litigation*

For information regarding the Myers Action, the Hiramitsu Action, the Feinhals Action, the Stein Action, the Clark Action, the Coffman Action, the Wilhelm Action, and the Patel Action, see Note 8(a) in the consolidated financial statements in Item 8 of our Annual Report on Form 10-K for the year ended December 31, 2020, which is incorporated herein by reference. In addition, on February 24, 2021, a lawsuit entitled *Sam Carlisle v. Aerojet Rocketdyne Holdings, Inc. et al.*, Case No. 1:21-cv-00281, was filed in the United States District Court for the District of Delaware against the Company and the members of the Company's Board of Directors (the "Carlisle Action"). On February 26, 2021, a lawsuit entitled *Rachel Harney v. Aerojet Rocketdyne Holdings, Inc. et al.*, Case No. 2:21-cv-00913, was filed in the United States District Court for the Eastern District of Pennsylvania against the Company and the members of the Company's Board of Directors (the "Harney Action"). On March 1, 2021, a lawsuit entitled *Darrell J. Clark v. Aerojet Rocketdyne Holdings, Inc. et al.*, Case No. 1:21-cv-01749, was filed in the United States District Court for the Southern District of New York against the Company and the members of the Company's Board of Directors (the "Darrell Clark Action"). The Myers Action, the Hiramitsu Action, the Feinhals Action, the Stein Action, the Clark Action, the Coffman Action, the Wilhelm Action, the Patel Action, the Carlisle Action, the Harney Action and the Darrell Clark Action are collectively referred to as the "Actions." The Actions alleged that the defendants violated Sections 14(a) (and Rule 14a-9 promulgated thereunder) and 20(a) of the Exchange Act by, among other things, omitting certain allegedly material information with respect to the Merger in the preliminary proxy statement filed by the Company on January 25, 2021, (in the case of the Myers Action, the Hiramitsu Action, the Feinhals Action, the Stein Action, the Clark Action and the Coffman Action) and the definitive proxy statement filed by the Company on February 5, 2021, (in the case of the Wilhelm Action, the Patel Action, the Carlisle Action, the Harney Action and the Darrell Clark Action). The Myers Action, the Feinhals Action and the Darrell Clark Action also alleged that the members of the Company's Board of Directors breached their fiduciary duties in connection with the Merger, and the Myers Action further alleged that the Company aided and abetted the directors' alleged breaches of fiduciary duties. The plaintiffs in the Actions sought, among other things, injunctive relief, money damages and the costs of the Actions, including reasonable attorneys' and experts' fees.

In April 2021, following the Company's filing of additional definitive proxy soliciting materials, the plaintiffs in each of the Actions voluntarily dismissed their lawsuits. Following the dismissal of the Actions, the Company agreed to pay an immaterial amount of plaintiffs' attorneys' fees and expenses to resolve plaintiffs' claims that they had the right to recover their attorneys' fees and expenses in connection with the Actions. No assurance can be given that additional lawsuits will not be filed against the Company and/or its directors and officers in connection with the Merger.

#### *Asbestos Litigation*

The Company has been, and continues to be, named as a defendant in lawsuits alleging personal injury or death and seeking various monetary damages due to exposure to asbestos in building materials, products, or in manufacturing operations. The majority of cases are pending in Illinois state courts. There were 132 asbestos cases pending as of September 30, 2021.

Given the lack of any significant consistency to claims (i.e., as to product, operational site, or other relevant assertions) filed against the Company, the Company is generally unable to make a reasonable estimate of the future costs of pending claims or unasserted claims. The aggregate settlement costs and legal and administrative fees associated with the Company's asbestos litigation has been immaterial for the last three years. As of September 30, 2021, the Company has accrued an immaterial amount related to pending claims.

#### *United States ex. rel. Markus vs. Aerojet Rocketdyne Holdings*

In the case captioned *United States ex. rel. Markus vs. Aerojet Rocketdyne Holdings, Inc. et al.*, Case No. 2:15-CV-02245- WBS-AC, the Department of Justice completed its review of the case and declined to intervene in June 2018. The case was originally filed under seal in the U.S. District Court, Eastern District of California in September 2017 and alleged causes of action against the Company based on false claims, retaliation, and wrongful termination of employment seeking injunctive relief, civil penalties, and compensatory and punitive damages. In February 2019, the Company filed a Motion to Dismiss the False Claims Act ("FCA") counts of the complaint and a Motion to Compel Arbitration on the employment based claims. In May 2019, the court dismissed one count of the FCA claim, denied the motion to dismiss the remaining FCA counts, and moved the employment based claims to arbitration. In September 2021, the parties filed Motions for Summary Judgment. The Company continues to vigorously contest the complaint's allegations and has not recorded any liability for this matter as of September 30, 2021.

### **b. Environmental Matters**

The Company is involved in approximately 40 environmental matters under the Comprehensive Environmental Response Compensation and Liability Act, the Resource Conservation Recovery Act, and other federal, state, and local laws relating to soil and groundwater contamination, hazardous waste management activities, and other environmental matters at some of its current

and former facilities. The Company is also involved in a number of remedial activities at third party sites, not owned by the Company, where it is designated a potentially responsible party ("PRP") by either the U.S. Environmental Protection Agency ("EPA") and/or a state agency. In many of these matters, the Company is involved with other PRPs. In some instances, the Company's liability and proportionate share of costs have not been determined largely due to uncertainties as to the nature and extent of site conditions and the Company's involvement. While government agencies frequently claim PRPs are jointly and severally liable at such sites, in the Company's experience, interim and final allocations of liability and costs are generally made based on relative contributions of waste or contamination. Anticipated costs associated with environmental remediation that are probable and estimable are accrued. In cases where a date to complete remedial activities at a particular site cannot be determined by reference to agreements or otherwise, the Company projects costs over an appropriate time period not exceeding 15 years. In such cases, generally the Company does not have the ability to reasonably estimate environmental remediation costs that are beyond this period. Factors that could result in changes to the Company's estimates include completion of current and future soil and groundwater investigations, new claims, future agency demands, discovery of more or less contamination than expected, discovery of new contaminants, modification of planned remedial actions, changes in estimated time required to remediate, new technologies, and changes in laws and regulations.

As of September 30, 2021, the aggregate range of these anticipated environmental costs was \$303.3 million to \$461.5 million and the accrued amount was \$303.3 million. See Note 8(c) for a summary of the environmental reserve activity. Of these accrued liabilities, approximately 98% relates to the Company's U.S. government contracting business, and a portion of this liability is recoverable. The significant environmental sites are discussed below. The balance of the accrued liabilities, which are not recoverable from the U.S. government, relate to other sites for which the Company's obligations are probable and estimable.

#### *Sacramento, California Site*

In 1989, a federal district court in California approved a Partial Consent Decree ("PCD") requiring Aerojet Rocketdyne, among other things, to conduct a Remedial Investigation and Feasibility Study to determine the nature and extent of impacts due to the release of chemicals from the Sacramento, California site, monitor the American River and offsite public water supply wells, operate Groundwater Extraction and Treatment facilities that collect groundwater at the site perimeter, and pay certain government oversight costs. The primary chemicals of concern for both on-site and off-site groundwater are trichloroethylene, perchlorate, and n-nitrosodimethylamine. A 2002 PCD revision (a) separated the Sacramento site into multiple operable units to allow quicker implementation of remedies for critical areas; (b) required the Company to guarantee up to \$75 million (in addition to a prior \$20 million guarantee) to assure that Aerojet Rocketdyne's Sacramento remediation activities are fully funded; and (c) removed approximately 2,600 acres of non-contaminated land from the EPA superfund designation. Obligations under the \$75 million aggregate guarantee are limited to \$10 million in any year. Both the \$75 million aggregate guarantee and the \$10 million annual limitation are subject to adjustment annually for inflation.

Aerojet Rocketdyne is involved in various stages of soil and groundwater investigation, remedy selection, design, construction, operation and maintenance associated with the operable units, all of which are conducted under the direction and oversight of the EPA, including unilateral administrative orders, and the California Department of Toxic Substances Control ("DTSC") and Regional Water Quality Control Board, Central Valley Region ("RWQCB"). On September 22, 2016, the EPA completed its first five-year remedy review of the Sacramento superfund site. The five-year review required by statute and regulation applies to all remedial actions which result in hazardous substances above levels that allow unlimited use and unrestricted exposure. The Company worked with the EPA to address and remedy the findings of the 2016 five-year remedy review. On September 15, 2021, the EPA issued its second five-year remedy review and concluded that the remedies are functioning as intended for the soil and groundwater contamination and that the vapor intrusion investigation and mitigation activities are protective against vapor intrusion risks. The Company is working with the EPA, DTSC, and RWQCB on the implementation of required onsite land use restrictions.

The entire southern portion of the site known as Rio Del Oro was under state orders issued in the 1990s from DTSC and the RWQCB to investigate and remediate soil and groundwater contamination. In 2008, the DTSC released all but approximately 400 acres of the Rio Del Oro property from DTSC's environmental orders regarding soil contamination although the property remains subject to the RWQCB's orders to investigate and remediate groundwater environmental contamination emanating offsite from the property.

As of September 30, 2021, the estimated range of anticipated costs discussed above for the Sacramento, California site was \$216.8 million to \$349.9 million and the accrued amount was \$216.8 million included as a component of the Company's environmental reserves. Expenditures associated with this matter are partially recoverable. See Note 8(c) for further discussion on recoverability.

#### *Baldwin Park Operable Unit ("BPOU")*

As a result of its former Azusa, California operations, in 1994, Aerojet Rocketdyne was named a PRP by the EPA in the area of the San Gabriel Valley Basin superfund site known as the BPOU. In 2002, Aerojet Rocketdyne, along with seven other PRPs (the "Cooperating Respondents") signed a project agreement with the San Gabriel Basin Water Quality Authority, the Main San Gabriel Basin Watermaster, and five water companies. The 2002 project agreement terminated in 2017 and the parties executed a project agreement which became operational on May 9, 2017. The agreement has a ten-year term and requires the Cooperating Respondents to fund through an escrow account the ongoing operation, maintenance, and administrative costs of certain treatment and water distribution facilities owned and operated by the water companies. There are also provisions in the project agreement for maintaining financial assurance.

Pursuant to the 2017 agreement with the remaining Cooperating Respondents, Aerojet Rocketdyne's current share of future BPOU costs will be approximately 74%.

As part of Aerojet Rocketdyne's sale of its Electronics and Information Systems ("EIS") business to Northrop Grumman Corporation ("Northrop") in October 2001, the EPA approved a prospective purchaser agreement with Northrop to absolve it of a pre-closing liability for contamination caused by the Azusa, California operations, which liability remains with Aerojet Rocketdyne. As part of that agreement, the Company agreed to provide a \$25 million guarantee of its obligations under the project agreement.

As of September 30, 2021, the estimated range of anticipated costs was \$69.4 million to \$83.3 million and the accrued amount was \$69.4 million included as a component of the Company's environmental reserves. Expenditures associated with this matter are partially recoverable. See Note 8(c) for further discussion on recoverability.

### c. Environmental Reserves and Estimated Recoveries

#### Environmental Reserves

The Company reviews on a quarterly basis estimated future remediation costs and has an established practice of estimating environmental remediation costs over a fifteen year period, except for those environmental remediation costs with a specific contractual term. Environmental liabilities at the BPOU site are currently estimated through the term of the project agreement, which expires in May 2027. As the period for which estimated environmental remediation costs lengthens, the reliability of such estimates decreases. These estimates consider the investigative work and analysis of engineers, outside environmental consultants, and the advice of legal staff regarding the status and anticipated results of various administrative and legal proceedings. In most cases, only a range of reasonably possible costs can be estimated. In establishing the Company's reserves, the most probable estimate is used when determinable; otherwise, the minimum amount is used when no single amount in the range is more probable. Accordingly, such estimates can change as the Company periodically evaluates and revises these estimates as new information becomes available. The Company cannot predict whether new information gained as projects progress will affect the estimated liability accrued. The timing of payment for estimated future environmental costs is influenced by a number of factors, such as the regulatory approval process and the time required designing, constructing, and implementing the remedy.

The following table summarizes the Company's environmental reserve activity:

	Aerojet Rocketdyne-Sacramento	Aerojet Rocketdyne-BPOU	Other Aerojet Rocketdyne Sites	Total Aerojet Rocketdyne	Other	Total Environmental Reserve
	(In millions)					
December 31, 2020	\$ 208.4	\$ 76.2	\$ 10.6	\$ 295.2	\$ 5.4	\$ 300.6
Additions/Adjustments	24.2	2.6	3.1	29.9	0.1	30.0
Expenditures	(15.8)	(9.4)	(1.7)	(26.9)	(0.4)	(27.3)
September 30, 2021	\$ 216.8	\$ 69.4	\$ 12.0	\$ 298.2	\$ 5.1	\$ 303.3

The effect of the final resolution of environmental matters and the Company's obligations for environmental remediation and compliance cannot be accurately predicted due to the uncertainty concerning both the amount and timing of future expenditures and due to regulatory or technological changes. The Company continues its efforts to mitigate past and future costs through pursuit of claims for recoveries from insurance coverage and other PRPs and continued investigation of new and more cost effective remediation alternatives and associated technologies.

#### Estimated Recoveries

On January 12, 1999, Aerojet Rocketdyne and the U.S. government reached a settlement agreement ("Global Settlement") covering environmental costs associated with the Company's Sacramento site and its former Azusa site. Pursuant to the Global Settlement, the Company can recover 88% of its environmental remediation costs through the establishment of prices for Aerojet Rocketdyne's products and services sold to the U.S. government. Additionally, in conjunction with the sale of the EIS business in 2001, Aerojet Rocketdyne entered into an agreement with Northrop (the "Northrop Agreement") whereby Aerojet Rocketdyne is reimbursed by Northrop for a portion of environmental expenditures eligible for recovery under the Global Settlement, subject to an annual billing limitation of \$6.0 million and a cumulative limitation of \$189.7 million which was reached in June 2017. The following table summarizes the Northrop Agreement activity (in millions):

Total reimbursable costs under the Northrop Agreement	\$ 189.7
Amount reimbursed to the Company through September 30, 2021	(147.7)
Receivable from Northrop included in the unaudited balance sheet at September 30, 2021	\$ 42.0

Environmental remediation costs are primarily incurred by the Company's Aerospace and Defense segment, and certain of these costs are recoverable from the Company's contracts with the U.S. government. The Company currently estimates approximately 12% of its future Aerospace and Defense segment environmental remediation costs will not likely be reimbursable and are expensed. Allowable environmental remediation costs are charged to the Company's contracts with the U.S. government as the costs are incurred. Because these costs are recovered through forward-pricing arrangements, the ability of Aerojet Rocketdyne to continue recovering these costs from the U.S. government depends on Aerojet Rocketdyne's sustained business volume from U.S. government contracts and programs.

While the Company continues to seek an arrangement with the U.S. government to recover environmental expenditures in excess of the reimbursement ceiling identified in the Global Settlement, there can be no assurances that such a recovery will be obtained, or if not obtained, that such unreimbursed environmental expenditures will not have a materially adverse effect on the Company's operating results, financial condition, and/or cash flows.

*Environmental reserves and estimated recoveries impact to unaudited condensed consolidated statements of operations*

The following table summarizes the financial information for the impact of environmental reserves and recoveries to the unaudited condensed consolidated statements of operations:

	Three months ended September 30,		Nine months ended September 30,	
	2021	2020	2021	2020
	(In millions)			
Expense to unaudited condensed consolidated statements of operations	\$ 2.4	\$ 3.1	\$ 3.5	\$ 3.3

**d. Arrangements with Off-Balance Sheet Risk**

As of September 30, 2021, arrangements with off-balance sheet risk consisted of:

- \$27.6 million in outstanding commercial letters of credit, the majority of which may be renewed, primarily to collateralize obligations for environmental remediation and insurance coverage.
- \$57.3 million in outstanding surety bonds to primarily satisfy indemnification obligations for environmental remediation coverage
- \$120.0 million aggregate in guarantees by the Company of Aerojet Rocketdyne's obligations to U.S. government agencies for environmental remediation activities.
- Guarantees, jointly and severally, by the Company's material domestic subsidiaries of their obligations under the Senior Credit Facility.

In addition to the items discussed above, the Company has and will from time to time enter into certain types of contracts that require the Company to indemnify parties against potential third-party and other claims. These contracts primarily relate to: (i) divestiture agreements, under which the Company may provide customary indemnification to purchasers of its businesses or assets including, for example, claims arising from the operation of the businesses prior to disposition, and liability to investigate and remediate environmental contamination existing prior to disposition; (ii) certain real estate leases, under which the Company may be required to indemnify property owners for claims arising from the use of the applicable premises; and (iii) certain agreements with officers and directors, under which the Company may be required to indemnify such persons for liabilities arising out of their relationship with the Company. The terms of such obligations vary. Generally, a maximum obligation is not explicitly stated.

Additionally, the Company has open purchase orders and other commitments to suppliers, subcontractors, and other outsourcing partners for equipment, materials, and supplies in the normal course of business. These amounts are based on volumes consistent with anticipated requirements to fulfill purchase orders or contracts for product deliveries received, or expected to be received, from customers. A substantial portion of these amounts are recoverable through the Company's contracts with the U.S. government.

The Company provides product warranties in conjunction with certain product sales. The majority of the Company's warranties are a one-year standard warranty for parts, workmanship, and compliance with specifications. On occasion, the Company has made commitments beyond the standard warranty obligation. While the Company has contracts with warranty provisions, there is not a history of any significant warranty claims experience. A reserve for warranty exposure is made on a product by product basis when it is both estimable and probable. These costs are included in the program's estimate at completion and are expensed in accordance with the Company's revenue recognition methodology as allowed under GAAP for that particular contract.

**Note 9. Retirement Benefits**

The following table presents the components of retirement benefits expense (income):

	Pension Benefits		Postretirement Medical and Life Insurance Benefits	
	Three months ended September 30,			
	2021	2020	2021	2020
	(In millions)			
Interest cost on benefit obligation	\$ 8.4	\$ 10.7	\$ 0.1	\$ 0.2
Expected return on assets	(15.3)	(15.2)	—	—
Amortization of prior service costs	—	—	—	—
Amortization of net losses (gains)	16.0	14.3	(0.7)	(0.9)
Retirement benefits expense (income)	\$ 9.1	\$ 9.8	\$ (0.6)	\$ (0.7)

	Pension Benefits		Postretirement Medical and Life Insurance Benefits	
	Nine months ended September 30,			
	2021	2020	2021	2020
	(In millions)			
Interest cost on benefit obligation	\$ 25.1	\$ 31.9	\$ 0.4	\$ 0.6
Expected return on assets	(46.0)	(45.4)	—	—

Interest income	0.2	0.5	1.5	4.7
Stock-based compensation	(0.5)	(5.5)	(10.6)	(13.2)
Corporate retirement benefits	(1.6)	(1.8)	(4.9)	(5.6)
Corporate and other	(4.2)	(6.6)	(15.6)	(16.6)
Unusual items (see Note 11)	(5.2)	—	(23.8)	—
<b>Income before income taxes</b>	<b>\$ 57.3</b>	<b>\$ 40.7</b>	<b>\$ 142.0</b>	<b>\$ 136.9</b>

The following table summarizes customers that represented more than 10% of net sales:

	Three months ended September 30,		Nine months ended September 30,	
	2021	2020	2021	2020
Lockheed Martin	33 %	35 %	31 %	34 %
NASA	19	21	21	22
Raytheon Technologies Corporation	17	15	17	16

**Note 11. Unusual Items**

The following table presents total unusual items in the unaudited condensed consolidated statements of operations:

	Three months ended September 30,		Nine months ended September 30,	
	2021	2020	2021	2020
	(In millions)			
Unusual items				
Merger costs (component of other expense, net)	\$ 7.2	\$ —	\$ 20.8	\$ —
Loss on debt	0.9	—	10.5	—
Legal related matter (component of other expense, net)	—	—	—	1.8
	<u>\$ 8.1</u>	<u>\$ —</u>	<u>\$ 31.3</u>	<u>\$ 1.8</u>

In the nine months ended September 30, 2021, the Company recorded \$20.8 million of costs associated with the Merger. See Note 1 for additional information. The components of the Merger costs are as follows (in millions):

Legal	\$ 11.5
Employee compensation (including \$3.5 million of recurring employee costs)	8.4
Consulting and other professional costs	0.9
	<u>\$ 20.8</u>

In the nine months ended September 30, 2021, the Company settled \$154.1 million of its 2¼% Notes as a result of receiving conversion notices from the holders of the 2¼% Notes. The principal amount of \$154.1 million was settled in cash and the conversion premium was settled in 2.9 million common shares. The Company incurred a pre-tax charge of \$10.5 million in the nine months ended September 30, 2021, associated with the settlement of the 2¼% Notes.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Unless otherwise indicated or required by the context, as used in this Quarterly Report on Form 10-Q, the terms "the Company," "we," "our" and "us" refer to Aerojet Rocketdyne Holdings, Inc. and all of its subsidiaries that are consolidated in conformity with accounting principles generally accepted in the United States of America ("GAAP").

The preparation of the consolidated financial statements in conformity with GAAP requires us to make estimates and assumptions that affect the amounts reported in the condensed consolidated financial statements and accompanying notes. Actual results could differ from those estimates. In addition, our operating results for interim periods may not be indicative of the results of operations for a full year or future periods. This section contains a number of forward-looking statements, all of which are based on current expectations and are subject to risks and uncertainties including those described in this Quarterly Report under the heading "Forward-Looking Statements." Actual results may differ materially. This section should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2020, and periodic reports subsequently filed with the Securities and Exchange Commission ("SEC").

### Overview

Our operations are organized into two segments:

*Aerospace and Defense* — includes the operations of our wholly-owned subsidiary Aerojet Rocketdyne, Inc. ("Aerojet Rocketdyne"), a leading technology-based designer, developer and manufacturer of aerospace and defense products and systems for the United States ("U.S.") government, including the Department of Defense ("DoD"), the National Aeronautics and Space Administration ("NASA"), and major aerospace and defense prime contractors.

*Real Estate* — includes the activities of our wholly-owned subsidiary Easton Development Company, LLC ("Easton") related to the re-zoning, entitlement, sale, and leasing of our excess real estate assets.

### Merger

On December 20, 2020, the Company entered into an Agreement and Plan of Merger (the "Merger Agreement") with Lockheed Martin Corporation ("Lockheed Martin") and Mizar Sub, Inc., a wholly-owned subsidiary of Lockheed Martin ("Merger Sub"), pursuant to which, subject to the terms and conditions thereof, Merger Sub will merge with and into the Company (the "Merger") with the Company being the surviving corporation and a wholly-owned subsidiary of Lockheed Martin. Subject to the terms and conditions set forth in the Merger Agreement, each share of common stock outstanding as of immediately prior to the effective time of the Merger will be automatically converted into the right to receive cash in an amount equal to \$51.00 per share (adjusted from \$56.00 following the payment of the Pre-Closing Dividend, as discussed below).

In December 2020, the Company's Board of Directors declared a one-time cash dividend of \$5.00 per share (including shares underlying the 2.25% Convertible Senior Notes ("2¼% Notes") participating on an as-converted basis) (the "Pre-Closing Dividend"). On March 24, 2021, the Company paid the Pre-Closing Dividend to holders of record as of March 10, 2021. Payment of the Pre-Closing Dividend was made in connection with the anticipated acquisition of the Company by Lockheed Martin. Under the terms of the Merger Agreement, the Company's payment of the Pre-Closing Dividend adjusted the consideration to be paid by Lockheed Martin at closing from \$56.00 per share to \$51.00 per share.

On February 18, 2021, the Company received a request for additional information ("second request") from the Federal Trade Commission ("FTC") as part of the regulatory review process for the acquisition of the Company by Lockheed Martin.

On March 9, 2021, the stockholders of the Company voted in favor of approving the Merger Agreement at a special meeting.

As part of the regulatory review process of the transaction, on September 24, 2021, the Company and Lockheed Martin each certified substantial compliance with the FTC's second request, and the parties continue to engage with the FTC. Subject to satisfactory completion of the regulatory review process and satisfaction of the other closing conditions specified in the Merger Agreement, closing is anticipated to occur in the first quarter of 2022. As previously disclosed, under the Merger Agreement, the "outside" date that gives rise to certain termination rights will automatically be extended from December 21, 2021, to March 21, 2022, in circumstances where all conditions have been satisfied but for the receipt of regulatory approvals.

## Financial Highlights

A summary of the significant financial highlights for the three and nine months ended September 30, 2021, which management uses to evaluate our operating performance and financial condition, is presented below.

	Three months ended September 30,		Nine Months ended September 30,	
	2021	2020	2021	2020
	(In millions, except percentage and per share amounts)			
Net sales	\$ 545.3	\$ 527.7	\$ 1,598.3	\$ 1,516.2
Net income	42.6	31.7	105.7	102.3
Net income as a percentage of net sales	7.8 %	6.0 %	6.6 %	6.7 %
Adjusted Net Income (Non-GAAP measure*)	47.8	31.7	126.1	99.6
Adjusted Net Income (Non-GAAP measure*) as a percentage of net sales	8.8 %	6.0 %	7.9 %	6.6 %
Earnings Per Share ("EPS") - Diluted	0.52	0.38	1.29	1.23
Adjusted EPS (Non-GAAP measure*)	0.58	0.38	1.54	1.19
Adjusted EBITDAP (Non-GAAP measure*)	82.5	62.5	227.6	201.2
Adjusted EBITDAP (Non-GAAP measure*) as a percentage of net sales	15.1 %	11.8 %	14.2 %	13.3 %
Cash provided by operating activities	75.2	11.0	95.4	138.6
Free cash flow (Non-GAAP measure*)	70.2	(3.8)	78.1	107.6

\* We provide Non-GAAP measures as a supplement to financial results presented in accordance with GAAP. A reconciliation of the Non-GAAP measures to the most directly comparable GAAP measures is presented later in the Management's Discussion and Analysis under the heading "Use of Non-GAAP Financial Measures."

Our business outlook is affected by both increasing complexity in the global security environment and continuing worldwide economic pressures, including those resulting from the coronavirus ("COVID-19") pandemic. A significant component of our strategy in this environment is to focus on protecting our employees' health and safety, delivering excellent performance to our customers, driving improvements and efficiencies across our operations, and creating value through the enhancement and expansion of our business.

Some of the significant challenges we face are as follows: uncertainty associated with the COVID-19 pandemic and the actions taken by governments, companies, and individuals in response, including the efficacy, distribution and approval of vaccines and booster shots, vaccine mandates, dependence upon U.S. government programs and contracts, future reductions or changes in U.S. government spending in our markets, environmental matters, capital structure, underfunded pension plan, and cyber security.

### COVID-19

During the nine months ended September 30, 2021, there was minimal adverse impact to our financial results and operations as a result of the COVID-19 outbreak. The safety and welfare of our employees remains our top priority, and throughout the year, we have continued to operate within our established safety protocols, which include selected and site-specific work and travel restrictions, in addition to other measures intended to reduce the spread of COVID-19. We have also continued to evaluate new opportunities to protect our employees. Although we have not experienced significant absenteeism or supply chain disruption, the extent to which the COVID-19 pandemic impacts our future financial results depends on future developments which are highly uncertain and cannot be predicted, including new information and COVID-19 variants which may emerge impacting the severity of the pandemic and the actions being taken to contain and treat it, including the efficacy, distribution and approval of vaccines and booster shots, vaccine mandates and other indirect effects that may come as a result of actions taken by governments, companies, and individuals in response to the pandemic and its economic impact.

We continue to be considered an essential business by the U.S. and state governments and continue to operate as such during the COVID-19 pandemic. We are taking a variety of measures to maintain the availability and functionality of our critical infrastructure, to promote the safety and security of our employees and to support the communities in which we operate. In making decisions regarding our operations, we take into account public and private sector policies and initiatives to reduce the transmission of COVID-19, such as the adoption of mask-wearing protocols, enhanced cleaning protocols and health monitoring, as well as the imposition of travel limitations, the promotion of social distancing, and the adoption of work-from-home requirements for employees where practicable. All of these policies and initiatives could impact our operations. Furthermore, as of October 14, 2021, the Company became contractually obligated to implement guidance issued by the Safer Federal Workforce Task Force on September 24, 2021, requiring, among other things, covered employees of covered federal contractors and subcontractors to be fully vaccinated against COVID-19 by December 8, 2021, with limited exceptions for those legally entitled to an accommodation.

Due to the evolving nature of the COVID-19 pandemic, corresponding U.S. government policies, vaccine mandates, and the uncertainty relating to vaccination rates and vaccine efficacy against new COVID-19 variants, we are not able at this time to estimate its full impact on our financial results and operations.

## Major Customers

The principal end user customers of our products and technology are primarily agencies of the U.S. government. Since a majority of our sales are, directly or indirectly, to the U.S. government, funding for the purchase of our products and services generally follows trends in U.S. aerospace and defense spending. However, individual U.S. government agencies, which include the military services, NASA, the Missile Defense Agency, and the prime contractors that serve these agencies, exercise independent purchasing power within "budget top-line" limits. Therefore, sales to the U.S. government are not regarded as sales to one customer, but rather each contracting agency is viewed as a separate customer.

The following table summarizes end user net sales to the U.S. government and its agencies, including net sales to significant customers disclosed below:

	Three months ended September 30,		Nine months ended September 30,	
	2021	2020	2021	2020
U.S. government	96 %	96 %	97 %	96 %
Non U.S. government	4	4	3	4

The following table summarizes the percentages of net sales for significant programs, all of which are included in the U.S. government sales and are comprised of multiple contracts:

	Three months ended September 30,		Nine months ended September 30,	
	2021	2020	2021	2020
RS-25	16 %	18 %	18 %	18 %
Standard Missile	12	11	13	12
Patriot Advanced Capability-3 ("PAC-3")	9	10	8	10
Terminal High Altitude Area Defense ("THAAD")	8	9	8	10

The following table summarizes customers that represented more than 10% of net sales, each of which involves sales of several product lines and programs:

	Three months ended September 30,		Nine months ended September 30,	
	2021	2020	2021	2020
Lockheed Martin	33 %	35 %	31 %	34 %
NASA	19	21	21	22
Raytheon Technologies Corporation	17	15	17	16

## Industry Update

Our primary aerospace and defense customers include DoD, NASA, and the prime contractors that supply products to these customers. We rely on U.S. government funding for aerospace and defense and our backlog depends, in large part, on the continued funding by the U.S. government for these programs. While Government Fiscal Year ("GFY") 2021 funding provided by the Consolidated Appropriations Act, 2021 (Public Law 116-260) expired on September 30, 2021, the Congress passed and the President signed into law a Continuing Resolution (Public Law 117-43) that extends GFY 2021 funding levels through December 3, 2021. Disruptions to our customer's facilities or delays in supply chain as a result of COVID-19 could delay or decrease expenditures by U.S. government agencies. Such a decrease in DoD and/or NASA expenditures, the elimination or curtailment of a program in which we are or hope to be involved, or changes in payment patterns of our customers as a result of changes in U.S. government outlays, could have a material adverse effect on our operating results, financial condition, and/or cash flows.

## Environmental Matters

Our current and former business operations are subject to, and affected by, federal, state, and local environmental laws and regulations relating to the discharge, treatment, storage, disposal, investigation, and remediation of certain materials, substances, and wastes. Our policy is to conduct our business with due regard for the preservation and protection of the environment. We periodically assess compliance with these regulations and we believe our current operations are materially in compliance with applicable environmental laws and regulations as of September 30, 2021.

The following table summarizes our recoverable amounts, environmental reserves, and range of liability, as of September 30, 2021:

	Recoverable Amounts (1)	Environmental Reserves	Estimated Range of Liability
	(In millions)		
Sacramento	\$ 190.8	\$ 216.8	\$216.8 - \$349.9
Baldwin Park Operable Unit	60.8	69.4	69.4 - 83.3
Other Aerojet Rocketdyne sites	12.0	12.0	12.0 - 21.7
Other sites	0.8	5.1	5.1 - 6.6
Total	\$ 264.4	\$ 303.3	\$303.3 - \$461.5

(1) Excludes the receivable from Northrop Grumman Corporation ("Northrop") of \$42.0 million as of September 30, 2021, related to environmental costs already paid (and therefore not reserved) by us in prior years and reimbursable under our agreement with Northrop.

Environmental remediation costs are primarily incurred by our Aerospace and Defense segment, and certain of these costs are recoverable from our contracts with the U.S. government. We currently estimate approximately 12% of our future Aerospace and Defense segment environmental remediation costs will not likely be reimbursable and are expensed.

#### Capital Structure

We have a substantial amount of debt for which we are required to make interest and principal payments. Interest on long-term financing is not a recoverable cost under our U.S. government contracts. As of September 30, 2021, we had \$467.2 million of debt outstanding.

#### Retirement Benefits

The American Rescue Plan Act of 2021 ("ARPA") that was signed into law on March 11, 2021, provided funding relief to sponsors of defined benefit pension plans. In line with provisions of ARPA, we expect to make cash contributions of approximately \$17 million to our tax-qualified defined benefit pension plan in 2021. We generally are able to recover contributions related to our tax-qualified defined benefit pension plan as allowable costs on our U.S. government contracts, but there are differences between when we contribute to our tax-qualified defined benefit pension plan under pension funding rules and when it is recoverable under CAS.

The COVID-19 pandemic and resulting global disruptions have continued to cause significant economic uncertainty and volatility in financial markets which could adversely impact the funded status of our tax-qualified defined benefit pension plan. The funded status of our pension plan is impacted by the investment experience of the plan assets, by any changes in U.S. law, and by changes in the statutory interest rates used by the tax-qualified pension plan in the U.S. to calculate funding requirements. Accordingly, if the performance of our plan assets does not meet our assumptions, if there are changes to the Internal Revenue Service regulations or other applicable law or if other actuarial assumptions are modified, our future contributions to our underfunded pension plan could be higher than we expect.

#### Cyber Security

We routinely defend against various cyber and other security threats against our defenses to protect the confidentiality, integrity and availability of our information technology infrastructure, supply chain, business or customer information and other threats. We are also subject to similar security threats at customer sites that we operate and manage as a contractual requirement.

The threats we face range from attacks common to most industries to more advanced and persistent, highly organized adversaries, insider threats and other threat vectors targeting us and other defense and aerospace companies; because we protect national security information. In addition, cyber threats are evolving, growing in their frequency and include, but are not limited to, malicious software, destructive malware, attempts to gain unauthorized access to data, disruption or denial of service attacks, and other electronic security breaches that could lead to disruptions in mission critical systems, unauthorized release of confidential, personal or otherwise protected information (ours or that of our employees, customers or partners), and corruption of data, networks or systems. We also could be impacted by cyber threats or other disruptions or vulnerabilities found in products we use or in our partners' or customers' systems that are used in connection with our business.

We continue to assess our information technology systems and are engaged in cooperative efforts with our customers, suppliers, and subcontractors to seek to minimize the impact of cyber threats, other security threats or business disruptions.

#### Results of Operations

##### Net Sales:

	Three months ended September 30,			Nine months ended September 30,		
	2021	2020	Change*	2021	2020	Change**
	(In millions)					
Net sales	\$ 545.3	\$ 527.7	\$ 17.6	\$ 1,598.3	\$ 1,516.2	\$ 82.1

\* *Primary reason for change.* The increase in net sales was primarily driven by the Ground Based Strategic Deterrent ("GBSD") and Army Tactical Missile Systems ("ATACMS") programs partially offset by a decline on the RS-68 program.

\*\* *Primary reason for change.* The increase in net sales was primarily driven by the GBSD and ATACMS programs partially offset by declines on the THAAD and RS-68 programs.

**Cost of Sales (exclusive of items shown separately below):**

	Three months ended September 30,			Nine months ended September 30,		
	2021	2020	Change*	2021	2020	Change**
(In millions, except percentage amounts)						
Cost of sales (exclusive of items shown separately below)	\$ 446.5	\$ 441.6	\$ 4.9	\$ 1,310.6	\$ 1,251.7	\$ 58.9
Percentage of net sales	81.9 %	83.7 %		82.0 %	82.6 %	

\* *Primary reason for change.* The decrease in cost of sales as a percentage of net sales was primarily driven by favorable changes in contract estimates on the RL-10 program.

\*\* *Primary reason for change.* The decrease in cost of sales as a percentage of net sales was primarily driven by favorable contract performance on the ATACMS and RS-68 programs.

**Selling, General and Administrative Expense ("SG&A"):**

	Three months ended September 30,			Nine months ended September 30,		
	2021	2020	Change*	2021	2020	Change*
(In millions, except percentage amounts)						
Components of SG&A:						
SG&A excluding stock-based compensation	\$ 4.7	\$ 5.7	\$ (1.0)	\$ 17.2	\$ 17.8	\$ (0.6)
Stock-based compensation	0.5	5.5	(5.0)	10.6	13.2	(2.6)
SG&A	\$ 5.2	\$ 11.2	\$ (6.0)	\$ 27.8	\$ 31.0	\$ (3.2)
Percentage of net sales	1.0 %	2.1 %		1.7 %	2.0 %	
Percentage of net sales excluding stock-based compensation	0.9 %	1.1 %		1.1 %	1.2 %	

\* *Primary reason for change.* The decrease in SG&A expense was primarily driven by stock-based compensation as a result of decrease in the fair value of the stock appreciation rights in the current period.

**Depreciation and Amortization:**

	Three months ended September 30,			Nine months ended September 30,		
	2021	2020	Change*	2021	2020	Change**
(In millions)						
Components of depreciation and amortization:						
Depreciation	\$ 11.1	\$ 11.2	\$ (0.1)	\$ 34.0	\$ 37.6	\$ (3.6)
Amortization	1.7	3.3	(1.6)	8.3	10.1	(1.8)
Accretion	0.7	0.6	0.1	2.1	2.0	0.1
Depreciation and amortization	\$ 13.5	\$ 15.1	\$ (1.6)	\$ 44.4	\$ 49.7	\$ (5.3)

\* *Primary reason for change.* The decrease in depreciation and amortization expense was primarily due to the completion of amortization expense for a significant portion of the customer related intangible assets associated with the acquisition of the Rocketdyne Business from United Technologies Corporation in 2013.

\*\* *Primary reason for change.* The decrease in depreciation and amortization expense was primarily due (i) to the completion of depreciation expense associated with the enterprise resource planning system which was placed into service in June 2013, and (ii) completion of amortization expense for certain customer related intangible assets (described above) .

**Other Expense, net:**

	Three months ended September 30,			Nine months ended September 30,		
	2021	2020	Change*	2021	2020	Change*
(In millions)						
Other expense, net	\$ 8.7	\$ 3.3	\$ 5.4	\$ 24.0	\$ 1.2	\$ 22.8

\* *Primary reason for change.* The increase in other expense, net was primarily due to costs associated with the Merger (see Note 11 of the Notes to Unaudited Condensed Consolidated Financial Statements).

**Retirement Benefits Expense:**

	Three months ended September 30,			Nine months ended September 30,		
	2021	2020	Change*	2021	2020	Change*
(In millions)						
Components of retirement benefits expense:						
Interest cost on benefit obligation	\$ 8.5	\$ 10.9	\$ (2.4)	\$ 25.5	\$ 32.5	\$ (7.0)
Expected return on assets	(15.3)	(15.2)	(0.1)	(46.0)	(45.4)	(0.6)
Amortization of prior service costs	—	—	—	0.1	0.1	—
Amortization of net losses	15.3	13.4	1.9	45.8	40.2	5.6
Retirement benefits expense	<u>\$ 8.5</u>	<u>\$ 9.1</u>	<u>\$ (0.6)</u>	<u>\$ 25.4</u>	<u>\$ 27.4</u>	<u>\$ (2.0)</u>

\* *Primary reason for change.* The decrease in retirement benefits expense was primarily due to lower interest costs on the benefit obligation, partially offset by higher actuarial losses in the current period as a result of a decrease in the discount rate used to calculate the benefit obligation at December 31, 2020.

**Loss on debt:**

	Three months ended September 30,			Nine months ended September 30,		
	2021	2020	Change	2021	2020	Change*
(In millions)						
Loss on debt	\$ 0.9	\$ —	\$ 0.9	\$ 10.5	\$ —	\$ 10.5

\* *Primary reason for change.* In the nine months ended September 30, 2021, we settled \$154.1 million of our 2¼% Notes as a result of receiving conversion notices from the holders of the 2¼% Notes. The principal amount of \$154.1 million was settled in cash and the conversion premium was settled in 2.9 million common shares. We incurred a pre-tax charge of \$10.5 million in the nine months ended September 30, 2021, associated with the settlement of the 2¼% Notes.

**Interest Income:**

	Three months ended September 30,			Nine months ended September 30,		
	2021	2020	Change	2021	2020	Change*
(In millions)						
Interest income	\$ 0.2	\$ 0.5	\$ (0.3)	\$ 1.5	\$ 4.7	\$ (3.2)

\* *Primary reason for change.* The decrease in interest income was primarily due to lower average cash balances and market rates.

**Interest Expense:**

	Three months ended September 30,			Nine months ended September 30,		
	2021	2020	Change*	2021	2020	Change*
(In millions)						
Components of interest expense:						
Contractual interest and other	\$ 3.4	\$ 4.7	\$ (1.3)	\$ 10.6	\$ 15.6	\$ (5.0)
Amortization of debt discount and deferred financing costs	1.5	2.5	(1.0)	4.5	7.4	(2.9)
Interest expense	<u>\$ 4.9</u>	<u>\$ 7.2</u>	<u>\$ (2.3)</u>	<u>\$ 15.1</u>	<u>\$ 23.0</u>	<u>\$ (7.9)</u>

\* *Primary reason for change.* The decrease in interest expense was primarily due to (i) the settlement of \$154.1 million of our 2¼% Notes during the nine months ended September 30, 2021, and (ii) lower variable interest rates and average obligations on our senior secured senior credit facility (the "Senior Credit Facility").

**Income Taxes:**

The income tax provision was as follows:

	Nine months ended September 30,	
	2021	2020
	(In millions)	
Income tax provision	\$ 36.3	\$ 34.6

In the nine months ended September 30, 2021, the income tax provision was \$36.3 million for an effective tax rate of 25.6%. Our effective tax rate differed from the 21% statutory federal income tax rate primarily due to state income taxes and certain expenditures which are permanently not deductible for tax purposes, partially offset by the impact of Research and Development ("R&D") credits.

In the nine months ended September 30, 2020, the income tax provision was \$34.6 million for an effective tax rate of 25.3%. Our effective tax rate differed from the 21% statutory federal income tax rate primarily due to state income taxes and certain expenditures which are permanently not deductible for tax purposes, partially offset by the impact of R&D credits.

**Operating Segment Information:**

We evaluate our operating segments based on several factors, of which the primary financial measure is segment performance. Segment performance represents net sales less applicable costs, expenses and provisions for unusual items relating to the segment. Excluded from segment performance are: corporate income and expenses, interest expense, interest income, income taxes, and unusual items not related to the segment. We believe that segment performance provides information useful to investors in understanding our operational performance.

*Aerospace and Defense Segment*

	Three months ended September 30,			Nine months ended September 30,		
	2021	2020	Change*	2021	2020	Change**
	(In millions, except percentage amounts)					
Net sales	\$ 544.7	\$ 527.1	\$ 17.6	\$ 1,596.2	\$ 1,513.4	\$ 82.8
Segment performance	73.6	61.7	11.9	211.2	192.0	19.2
Segment margin	13.5 %	11.7 %		13.2 %	12.7 %	

\* *Primary reason for change.* The increase in net sales was primarily driven by the GBSD and ATACMS programs partially offset by a decline on the RS-68 program.

The increase in segment margin was primarily driven by favorable changes in contract estimates on the RL-10 program partially offset by costs associated with the Merger.

\*\* *Primary reason for change.* The increase in net sales was primarily driven by the GBSD and ATACMS programs partially offset by declines on the THAAD and RS-68 programs.

The increase in segment margin was primarily driven by favorable contract performance on the ATACMS and RS-68 programs partially offset by costs associated with the Merger.

Our contracts are largely categorized as either "fixed-price" (largely used by the U.S. government for production-type contracts) or "cost-reimbursable" (largely used by the U.S. government for development-type contracts). Fixed-price contracts present the risk of unreimbursed cost overruns, potentially resulting in lower than expected contract profits and margins. This risk is generally lower for cost-reimbursable contracts which, as a result, generally have a lower margin. The following table summarizes the percentages of net sales by contract type:

	Three months ended September 30,		Nine months ended September 30,	
	2021	2020	2021	2020
Fixed-price	57 %	60 %	56 %	61 %
Cost-reimbursable	43	40	44	39

During the three months ended September 30, 2021, we had \$10.8 million of net favorable changes in contract estimates on operating results before income taxes compared with net favorable changes of \$3.2 million during the three months ended September 30, 2020. During the nine months ended September 30, 2021, we had \$32.4 million of net favorable changes in contract estimates on operating results before income taxes compared with net favorable changes of \$21.4 million during the nine months ended September 30, 2020.

Real Estate Segment

	Three months ended September 30,			Nine months ended September 30,		
	2021	2020	Change	2021	2020	Change*
	(In millions)					
Net sales	\$ 0.6	\$ 0.6	\$ —	\$ 2.1	\$ 2.8	\$ (0.7)
Segment performance	(0.1)	(0.4)	0.3	(0.7)	(1.4)	0.7

\* Primary reason for change. Net sales and segment performance consist primarily of rental property operations.

**Backlog**

As of September 30, 2021, our total remaining performance obligations, also referred to as backlog, totaled \$7.0 billion compared with \$6.7 billion as of December 31, 2020. We expect to recognize approximately 32%, or \$2.3 billion, of the remaining performance obligations as sales over the next twelve months, an additional 26% the following twelve months, and 42% thereafter. A summary of our backlog is as follows:

	September 30, 2021	December 31, 2020
	(In billions)	
Funded backlog	\$ 3.2	\$ 3.0
Unfunded backlog	3.8	3.7
Total backlog	<u>\$ 7.0</u>	<u>\$ 6.7</u>

Total backlog includes both funded backlog (unfilled orders for which funding is authorized, appropriated and contractually obligated by the customer) and unfunded backlog (firm orders for which funding has not been appropriated). Indefinite delivery and quantity contracts and unexercised options are not reported in total backlog. Backlog is subject to funding delays or program restructurings/cancellations which are beyond our control.

**Use of Non-GAAP Financial Measures**

**Adjusted EBITDAP, Adjusted Net Income, and Adjusted EPS**

We provide the Non-GAAP financial measures of our performance called Adjusted EBITDAP, Adjusted Net Income, and Adjusted EPS. We use these metrics to measure our operating and total Company performance. We believe that for management and investors to effectively compare core performance from period to period, the metrics should exclude items that are not indicative of, or are unrelated to, results from our ongoing business operations such as retirement benefits (pension and postretirement benefits), significant non-cash expenses, the impacts of financing decisions on earnings, and items incurred outside the ordinary, ongoing and customary course of our business. Accordingly, we define Adjusted EBITDAP as GAAP net income adjusted to exclude interest expense, interest income, income taxes, depreciation and amortization, retirement benefits net of amounts that are recoverable under our U.S. government contracts, and unusual items (see Note 11 in the unaudited condensed consolidated financial statements for additional information). Adjusted Net Income and Adjusted EPS exclude retirement benefits net of amounts that are recoverable under our U.S. government contracts and unusual items which we do not believe are reflective of such ordinary, ongoing and customary activities. Adjusted Net Income and Adjusted EPS do not represent, and should not be considered an alternative to, net income or diluted EPS as determined in accordance with GAAP.

	Three months ended September 30,		Nine months ended September 30,	
	2021	2020	2021	2020
	(In millions, except per share and percentage amounts)			
Net income	\$ 42.6	\$ 31.7	\$ 105.7	\$ 102.3
Interest expense	4.9	7.2	15.1	23.0
Interest income	(0.2)	(0.5)	(1.5)	(4.7)
Income tax provision	14.7	9.0	36.3	34.6
Depreciation and amortization	13.5	15.1	44.4	49.7
GAAP retirement benefits expense	8.5	9.1	25.4	27.4
CAS recoverable retirement benefits expense	(9.6)	(9.1)	(29.1)	(32.9)
Unusual items	8.1	—	31.3	1.8
Adjusted EBITDAP	\$ 82.5	\$ 62.5	\$ 227.6	\$ 201.2
Net income as a percentage of net sales	7.8 %	6.0 %	6.6 %	6.7 %
Adjusted EBITDAP as a percentage of net sales	15.1 %	11.8 %	14.2 %	13.3 %
Net income	\$ 42.6	\$ 31.7	\$ 105.7	\$ 102.3
GAAP retirement benefits expense	8.5	9.1	25.4	27.4
CAS recoverable retirement benefits expense	(9.6)	(9.1)	(29.1)	(32.9)
Unusual items	8.1	—	31.3	1.8
Income tax impact of adjustments (1)	(1.8)	—	(7.2)	1.0
Adjusted Net Income	\$ 47.8	\$ 31.7	\$ 126.1	\$ 99.6
Diluted EPS	\$ 0.52	\$ 0.38	\$ 1.29	\$ 1.23
Adjustments	0.06	—	0.25	(0.04)
Adjusted EPS	\$ 0.58	\$ 0.38	\$ 1.54	\$ 1.19
Diluted weighted average shares, as reported and adjusted	82.3	81.9	81.5	82.4

(1) The income tax impact is calculated using the federal and state statutory rates in the corresponding period.

#### Free Cash Flow

We also provide the Non-GAAP financial measure of Free Cash Flow. Free Cash Flow is defined as cash flow from operating activities less capital expenditures. Free Cash Flow should not be considered in isolation as a measure of residual cash flow available for discretionary purposes or as an alternative to cash flows from operations presented in accordance with GAAP. We use Free Cash Flow, both in presenting our results to stakeholders and the investment community, and in our internal evaluation and management of the business. Management believes that this financial measure is useful to investors because it provides supplemental information to assist them in viewing the business using the same tools that management uses to evaluate progress in achieving our goals. The following table summarizes Free Cash Flow:

	Three months ended September 30,		Nine months ended September 30,	
	2021	2020	2021	2020
	(In millions)			
Net cash provided by operating activities	\$ 75.2	\$ 11.0	\$ 95.4	\$ 138.6
Capital expenditures	(5.0)	(14.8)	(17.3)	(31.0)
Free Cash Flow	\$ 70.2	\$ (3.8)	\$ 78.1	\$ 107.6

Because our method for calculating these Non-GAAP measures may differ from other companies' methods, the Non-GAAP measures presented above may not be comparable to similarly titled measures reported by other companies. These measures are not recognized in accordance with GAAP, and we do not intend for this information to be considered in isolation or as a substitute for GAAP measures.

#### Other Information

##### Recently Adopted and Issued Accounting Pronouncements

See Note 1 of the Notes to Unaudited Condensed Consolidated Financial Statements for information relating to our discussion of the effects of recent adopted and issued accounting pronouncements.

##### Contractual Obligations

There have been no material changes to our contractual obligations as previously reported in our Annual Report on Form 10-K for the year ended December 31, 2020.

### Arrangements with Off-Balance Sheet Risk

See Note 8(d) of the Notes to Unaudited Condensed Consolidated Financial Statements for off-balance sheet risk.

### Critical Accounting Policies and Estimates

Our financial statements are prepared in accordance with GAAP that offer acceptable alternative methods for accounting for certain items affecting our financial results, such as determining contract costs, depreciating long-lived assets, and recognizing revenues.

The preparation of financial statements requires the use of estimates, assumptions, judgments, and interpretations that can affect the reported amounts of assets, liabilities, revenues, and expenses, the disclosure of contingent assets and liabilities and other supplemental disclosures. The development of accounting estimates is the responsibility of our management. Management discusses those areas that require significant judgment with the audit committee of our board of directors. All of our financial disclosures in our filings with the SEC have been reviewed with the audit committee. Although we believe that the positions we have taken with regard to uncertainties are reasonable, others might reach different conclusions and our positions can change over time as more information becomes available. If an accounting estimate changes, its effects are accounted for prospectively and, if significant, disclosed in the Notes to Unaudited Condensed Consolidated Financial Statements.

The areas most affected by our accounting policies and estimates are revenue recognition, other contract considerations, retirement benefit plans, litigation, environmental remediation costs and recoveries, and income taxes. Except for income taxes and litigation matters related to legacy operations, which are not allocated to our operating segments, these areas affect the financial results of our business segments.

A detailed description of our significant accounting policies can be found in our most recent Annual Report on Form 10-K for the year ended December 31, 2020.

### Liquidity and Capital Resources

The following table summarizes the changes in cash, cash equivalents and restricted cash:

	Nine months ended September 30,	
	2021	2020
	(In millions)	
Net cash provided by operating activities	\$ 95.4	\$ 138.6
Net cash used in investing activities	(19.2)	(32.5)
Net cash used in financing activities	(600.8)	(28.7)
Net decrease in cash, cash equivalents and restricted cash	\$ (524.6)	\$ 77.4

#### Net Cash Provided by Operating Activities

The decrease in cash provided by operating activities for the nine months ended September 30, 2021, compared with the nine months ended September 30, 2020, was primarily due to a decrease in cash flow from contracts primarily due to the timing of contract advances and billings, partially offset by improved cash flow from the timing of vendor payments and lower income taxes paid.

#### Net Cash Used in Investing Activities

During the nine months ended September 30, 2021 and 2020, we had capital expenditures of \$17.3 million and \$31.0 million, respectively.

During the nine months ended September 30, 2021 and 2020, we had net marketable securities purchases of \$1.9 million and \$1.5 million, respectively.

#### Net Cash Used in Financing Activities

During the nine months ended September 30, 2021, we had dividend payments of \$428.5 million.

During the nine months ended September 30, 2021 and 2020, we had debt repayments of \$175.5 million and \$14.7 million, respectively. See a summary of our debt activity below.

During the nine months ended September 30, 2021 and 2020, we had net proceeds (disbursements) from shares issued under our equity plans of \$3.2 million and (\$1.7) million, respectively.

## Debt Activity and Covenants

The following table summarizes our debt principal activity:

	December 31, 2020	Principal Payments (In millions)	September 30, 2021
Term loan	\$ 308.5	\$ (19.7)	\$ 288.8
2 <sup>1</sup> / <sub>4</sub> % Notes	300.0	(154.1)	145.9
Finance leases	45.6	(1.7)	43.9
Total Debt Activity	<u>\$ 654.1</u>	<u>\$ (175.5)</u>	<u>\$ 478.6</u>

We were in compliance with our financial and non-financial covenants under the Senior Credit Facility as of September 30, 2021.

## Outlook

Short-term liquidity requirements consist primarily of recurring operating expenses, including but not limited to costs related to our capital and environmental expenditures, company-funded R&D expenditures, debt service requirements, and retirement benefit plans. We believe that our existing cash and cash equivalents and availability under the Senior Credit Facility coupled with cash generated from our future operations will provide sufficient funds to meet our operating plan for the next twelve months. The operating plan for this period provides for full operation of our businesses, including interest and debt payments. As of September 30, 2021, we had \$624.9 million of cash and cash equivalents as well as \$622.4 million of available borrowings under our Senior Credit Facility. Based on our existing debt agreements, we were in compliance with our financial and non-financial covenants as of September 30, 2021. Our failure to comply with these covenants could result in an event of default that, if not cured or waived by the lenders, could result in the acceleration of the Senior Credit Facility and 2<sup>1</sup>/<sub>4</sub>% Notes. In addition, our failure to pay principal and interest when due is a default under the Senior Credit Facility, and in certain cases, would cause a cross default on the 2<sup>1</sup>/<sub>4</sub>% Notes.

We are committed to a cash management strategy that maintains liquidity to adequately support the operation of the business, our growth strategy, as well as to withstand unanticipated business volatility, including any impact arising from the COVID-19 pandemic. Our cash management strategy includes maintaining the flexibility to pay down debt and/or repurchase shares depending on economic and other conditions. In connection with the implementation of our cash management strategy, our management may seek to retire or purchase our outstanding debt through cash purchases and/or exchanges for equity securities, in open market purchases, privately negotiated transactions or otherwise if we believe that it is in our best interests. Such repurchases or exchanges, if any, will depend on prevailing market conditions, our liquidity requirements, contractual restrictions and other factors. The amounts involved may be material.

The CARES Act was enacted on March 27, 2020, in response to the COVID-19 pandemic and the negative impacts that it is having on the global economy and U.S. companies. The CARES Act includes various financial measures to assist companies, including temporary changes to income and non-income-based tax laws. Through these provisions, as of September 30, 2021, we have delayed \$21.4 million of payroll tax payments that otherwise would have been paid in 2020. Additionally, in accordance with the provisions of the CARES Act, we accelerated depreciation on qualified improvement property placed in service after December 31, 2017 for income tax purposes.

In light of the pending Merger, we do not expect to pursue strategic acquisitions at this time. In addition, pursuant to the Merger Agreement, we are restricted from paying additional dividends to shareholders prior to the closing of the Merger. If the Merger is not completed for any reason, we would expect to consider exploring possible strategic acquisitions. Potential future business acquisitions depend, in part, on the availability of financial resources at an acceptable cost of capital. We expect to utilize cash on hand and cash generated by operations, as well as cash available under our Senior Credit Facility, which may involve renegotiation of credit limits to finance any future acquisitions. Other sources of capital could include the issuance of common and/or preferred stock, the placement of debt, or combination of both. We periodically evaluate capital markets and may access such markets when circumstances appear favorable. We believe that sufficient capital resources will be available from one or several of these sources to finance any future acquisitions. However, no assurances can be made that acceptable financing will be available, or that acceptable acquisition candidates will be identified, or that any such acquisitions will be accretive to earnings.

As disclosed in Notes 8(a) and 8(b) in the unaudited condensed consolidated financial statements, we have exposure for certain legal and environmental matters. We believe that it is currently not possible to estimate the impact, if any, that the ultimate resolution of certain of these matters will have on our financial position, results of operations, or cash flows.

Major factors that could adversely impact our forecasted operating cash and our financial condition are described in the section "Risk Factors" in Item 1A of our Annual Report to the SEC on Form 10-K for the year ended December 31, 2020, and should be read in conjunction with the risk factors therein and the information described in this Quarterly Report.

## Forward-Looking Statements

Certain information contained in this report should be considered "forward-looking statements" as defined by Section 21E of the Private Securities Litigation Reform Act of 1995. All statements in this report other than historical information may be deemed forward-looking statements. These statements present (without limitation) the expectations, beliefs, plans and objectives

of management and future financial performance and assumptions underlying, or judgments concerning, the matters discussed in the statements. The words "believe," "estimate," "anticipate," "project" and "expect," and similar expressions, are generally intended to identify forward-looking statements. Forward-looking statements involve certain risks, estimates, assumptions and uncertainties, including with respect to future sales and activity levels, cash flows, contract performance, the outcome of litigation and contingencies, environmental remediation and anticipated costs of capital. A variety of factors could cause actual results or outcomes to differ materially from those expected and expressed in our forward-looking statements. Important risk factors that could cause actual results or outcomes to differ from those expressed in the forward-looking statements are described in the section "Risk Factors" in Item 1A of our Annual Report to the SEC on Form 10-K for the year ended December 31, 2020, and include, but are not limited to, the following:

- failure to complete the Merger could negatively impact the price of our common stock, as well as our future business and financial results;
- reductions, delays or changes in U.S. government spending;
- cancellation or material modification of one or more significant contracts;
- failure of the Company's subcontractors or suppliers to perform their contractual obligations;
- loss of key qualified suppliers of technologies, components, and materials;
- the release, unplanned ignition, explosion, or improper handling of dangerous materials used in the Company's businesses;
- risks inherent to the real estate market;
- the COVID-19 pandemic and its impact on economic and other conditions world-wide, including global spending, sourcing and the business operations of the Company and its customers and suppliers, among others;
- actions taken by governments, businesses and individuals in response to the COVID-19 pandemic, including mandated vaccinations;
- cost overruns on the Company's contracts that require the Company to absorb excess costs;
- failure of the Company's information technology infrastructure, including a successful cyber-attack, accident, unsuccessful outsourcing of certain information technology and cyber security functions, or security breach that could result in disruptions to the Company's operations;
- changes in economic and other conditions in the Sacramento, California metropolitan area real estate market or changes in interest rates affecting real estate values in that market;
- the loss of key employees and shortage of available skilled employees to achieve anticipated growth;
- a strike or other work stoppage or the Company's inability to renew collective bargaining agreements on favorable terms;
- changes in estimates related to contract accounting;
- the funded status of the Company's defined benefit pension plan and the Company's obligation to make cash contributions in excess of the amount that the Company can recover in its current period overhead rates;
- the substantial amount of debt that places significant demands on the Company's cash resources and could limit the Company's ability to borrow additional funds or expand its operations;
- the Company's ability to comply with the financial and other covenants contained in the Company's debt agreements;
- changes in LIBOR reporting practices or the method by which LIBOR is determined;
- failure to secure contracts;
- costs and time commitment related to potential and/or actual acquisition activities, including the Merger, may exceed expectations;
- failure to comply with regulations applicable to contracts with the U.S. government;
- failure of the Company's information technology infrastructure or failure to perform by the Company's third party service providers;
- product failures, schedule delays or other problems with existing or new products and systems;
- the possibility that environmental and other government regulations that impact the Company become more stringent or subject the Company to material liability in excess of its established reserves;
- environmental claims related to the Company's current and former businesses and operations including the inability to protect or enforce previously executed environmental agreements;
- reductions in the amount recoverable from environmental claims;
- significant risk exposures and potential liabilities that are inadequately covered by insurance;
- limitations associated with our stockholders' ability to obtain favorable judgement from the Court of Chancery in the State of Delaware;
- business disruptions to the extent not covered by insurance;
- changes or clarifications to current tax law or procedural guidance could adversely impact the Company's tax liabilities and effective tax rate;
- exposures and uncertainties related to claims and litigation, including litigation arising from the Merger;
- effects of changes in discount rates and actuarial estimates, actual returns on plan assets, and government regulations on defined benefit pension plans;
- inability to protect the Company's patents and proprietary rights; and
- those risks detailed in the Company's reports filed with the SEC.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

There have been no material changes to our disclosures related to certain market risks as reported under Part II, Item 7A, "Quantitative and Qualitative Disclosures About Market Risk," in our Annual Report to the SEC on Form 10-K for the year ended December 31, 2020.

### Interest Rate Risk

We are exposed to market risk principally due to changes in interest rates related to our borrowings, cash and cash equivalents, marketable securities, and pension assets and liabilities.

#### Borrowings

As of September 30, 2021, our debt principal excluding finance lease obligations totaled \$434.7 million: \$145.9 million, or 34%, was at a fixed rate of 2.25%; and \$288.8 million, or 66%, was at a variable rate of 1.83%.

The following table summarizes the estimated fair value and principal amount for outstanding debt obligations excluding finance lease obligations:

	Fair Value		Principal Amount	
	September 30, 2021	December 31, 2020	September 30, 2021	December 31, 2020
	(In millions)			
Term loan	\$ 281.9	\$ 306.5	\$ 288.8	\$ 308.5
2 <sup>1</sup> / <sub>4</sub> % Notes	246.4	609.5	145.9	300.0
<b>Total</b>	<b>\$ 528.3</b>	<b>\$ 916.0</b>	<b>\$ 434.7</b>	<b>\$ 608.5</b>

The fair value of the 2<sup>1</sup>/<sub>4</sub>% Notes was determined using broker quotes that are based on open markets for our debt securities (Level 2 securities). The fair value of the term loan was estimated based on a third-party model used to derive a relative value price using comparable corporate loans within a similar industry, credit quality, and currency.

#### Cash and Marketable Securities

We also have exposure to changes in interest rates related to interest earned and market value on our cash and cash equivalents and marketable securities. Our cash and cash equivalents and marketable securities consist of cash, time deposits, money market funds, and investment grade corporate debt securities. Our investment policy and strategy are focused on preservation of capital and supporting our liquidity requirements. Changes in U.S. interest rates affect the interest earned on our cash and cash equivalents and marketable securities, and the market value of those securities.

#### Pension Assets and Liabilities

Our tax-qualified pension assets and liabilities are subject to interest rate risk. Information concerning our interest rate risk related to our tax-qualified pension assets and liabilities can be found in Part 7, Item 1, Management's Discussion and Analysis of Financial Condition and Results of Operations under the caption "Critical Accounting Policies" in our Annual Report on Form 10-K for the year ended December 31, 2020.

### Item 4. Controls and Procedures

#### Evaluation of disclosure controls and procedures

Based on our management's evaluation (with the participation of our principal executive officer and principal financial officer), as of the end of the period covered by this report, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) are effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms and is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

#### Changes in internal control over financial reporting

There were no changes in internal control over financial reporting that occurred during the most recent quarter that have materially affected, or are reasonably likely to materially affect, the effectiveness of our internal control over financial reporting.

## PART II — OTHER INFORMATION

### Item 1. Legal Proceedings

Except as disclosed in Note 8 of the Notes to Unaudited Condensed Consolidated Financial Statements, which is incorporated herein by reference, there have been no significant developments in the pending legal proceedings as previously reported in Part 1, Item 3, Legal Proceedings in our Annual Report on Form 10-K for the year ended December 31, 2020.

### Item 1A. Risk Factors

The information presented below sets forth what we reasonably believe represent material changes to the risk factors described in our Annual Report on Form 10-K for the year ended December 31, 2020, and should be read in conjunction with the risk factors therein and the information described in this Quarterly Report.

***Our results of operations and financial position may be negatively impacted by the COVID-19 pandemic, and the resulting economic disruption.***

The World Health Organization declared COVID-19 a pandemic on March 11, 2020. Subsequently, all the states and local governments in communities where we operate issued various state of emergency decrees or "Stay at Home" orders restricting non-essential business activities. As a defense industrial-base U.S. government contractor, we are considered an essential business by the U.S. and state governments and we continue to operate as such during the COVID-19 pandemic. U.S., state, and local government restrictions continue to evolve, and the risk of future outbreaks or exposure of our workforce to COVID-19, which may impact employee health and absenteeism, remains uncertain. There is a risk that new strains of the virus could result in new outbreaks and that the efforts being undertaken to combat the virus may not be as successful or effective as intended. As of October 14, 2021, the Company became contractually obligated to implement guidance issued by the Safer Federal Workforce Task Force on September 24, 2021, requiring, among other things, covered employees of covered federal contractors and subcontractors to be fully vaccinated against COVID-19 by December 8, 2021, with limited exceptions for those legally entitled to an accommodation. The extent to which these requirements may impact our business remains uncertain, but may cause, among other things, reduced employee morale, the loss of employees and inability to maintain a sufficient workforce, production delays, increased costs, supply chain disruptions, inability to perform under our contracts and other business disruptions, all of which could have an adverse impact on our business operations and financial results. In addition, certain states in which we operate have proposed or enacted legislation that may be in conflict or hinder our ability to comply with our contractual obligations to implement these requirements.

We continue to actively monitor the COVID-19 pandemic and its future potential impact on our employees, customers, and supply chain. The increase in the number of our employees who are working remotely as a result of the COVID-19 pandemic has increased cyber and other security-related risks that are associated with operating in a remote environment. As a result, we have increased reliance on our remote employees following our procedures and protocols to protect our confidential information and information entrusted to us. If our workforce fails to properly adhere to these procedures, we could have increased vulnerability to data loss, security breaches, cyber-attacks and other similar events and intrusions.

While some of our employees are able to work remotely, a significant number can only perform their job functions on site, and we have promulgated policies designed to provide for appropriate social distancing, employee protection, mask-wearing, enhanced cleaning protocols, and health monitoring. We evaluate and modify these policies as needed on an ongoing basis, but there remains the risk of disruption or reduced efficiency caused by social distancing and other protective measures as well as elevated employee absence because of illness or required quarantines.

While our customers and suppliers generally continue to operate and perform their missions, some facilities have temporarily reduced or halted operations due to precautionary measures, staffing illness, or business disruptions. The length and severity of such delays and closures, and any impact they will have on our operations, remains uncertain. We cannot predict whether the current or future closures of our customer facilities related to the COVID-19 pandemic will have a material adverse effect on our financial results and operations. In addition, as we have a diverse supply chain utilizing companies of varying size, resources and complexity, there is no guarantee that our supply network will have sufficient resources or the ability to maintain their operations.

In addition, the COVID-19 pandemic and resulting global disruptions have caused significant economic uncertainty and volatility in financial markets. Moreover, additional or unforeseen effects from the COVID-19 pandemic and actions taken by governments, companies, and individuals in response to the pandemic may affect our results of operations and financial positions in unexpected ways.

## Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

### Issuer Purchases of Equity Securities

The table below provides information about shares surrendered to the Company during the three months ended September 30, 2021, to pay employee withholding taxes due upon the vesting of restricted stock.

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares that May Yet Be Purchased under the Plans or Programs
July 1, 2021 through July 31, 2021	8,967	\$ 46.80	—	—
August 1, 2021 through August 31, 2021	—	\$ —	—	—
September 1, 2021 through September 30, 2021	839	\$ 43.46	—	—
Total	9,806	\$ 46.51	—	—

On March 13, 2020, we announced that our Board of Directors authorized and approved a new share repurchase program allowing us to repurchase our outstanding common stock with an aggregate market value of up to \$100 million over a period of up to 18 months; however, management has discretion as to whether any repurchases will be executed. The timing of any share repurchases will be based on available liquidity, cash flows and general market conditions. The repurchase program may be executed through various methods, including open market purchases or privately negotiated transactions. As of September 30, 2021, we have \$48.3 million of market value remaining for repurchase under the program at management's discretion.

### Item 3. Defaults Upon Senior Securities

None.

### Item 4. Mine Safety Disclosures

Not applicable.

### Item 5. Other Information

None.

**CERTIFICATION PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Eileen P. Drake, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Aerojet Rocketdyne Holdings, Inc.;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

(a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

(b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

(c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

(d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

(a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

(b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
